FME Modules

Events Manager

PrestaShop 1.6.x To 1.7.x Module

User Guide 1.0

INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors and others of Events Manager PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

This extension will only work on PrestaShop version 1.6.x to 1.7.x. As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand on how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.
